**DETAILED ACTION**

***Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 4-16, 28, 31-40, 42-43 and 64-69, drawn to 340/539.32.

Related to remote controllers

Group II, claim(s) 1-3, 17-27, 29-30, 41, 44-63 and 68-75, drawn to 455/127, 420.

Related to wireless communications systems.

The inventions are related but if separate they can stand by themselves as separate inventions. Group I, as stated above relates to misplaced remote controllers which are classified in class 340. Remote controllers are an invention that stand alone. Voice communications are not necessary for the remote control system to stand alone as an invention.

Regarding group II, there method refers to wireless voice communications devices that stand alone as an invention and do not require control systems for locating devices in order to perform as a sole invention.

Because these inventions are related but distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
